ALLIED
GENETIC RESOURCES

Greetings and Welcome to Durhams in the Dakotas 2020!

Welcome to your first look at our 14th annual bull sale, Durhams in the Dakotas 2020. It feels really good to say and write 2020...to all reading this, take pride in the fact no matter how challenging 2019 was, we all persevered and got through it. As much as it was one I'd like to forget, I'm also reminded of the many blessings we were afforded. We sold more Shorthorn bulls than we ever had. That momentum carried through to Durham Nation 2019 where we had an exceptional auction in extremely trying times for our area and the ag sector as a whole. When the pickups and trailers finally came to a stop, we had delivered Shorthorn females to 17 different states, sold a flush to Australia, and in the process reconnected with many past friends and customers, along with making some valuable new ones.

The bulls on the forthcoming pages are what you've come to expect and represent not only our largest offering ever, but the largest Shorthorn bull offering in the entire US. Moderate in their design, easy fleshing, structurally sound bulls with balanced EPD profiles built to stand up in any environment. Along those lines, the majority of the offering comes to you endorsed as suitable for heifers. Lastly, and likely most important, is the longevity bred into these bulls. How many places can you go to where the senior herd sires are aged 9,8,8,7 and 7, respectively? I doubt many, if any, anywhere, of any breed. We take great pride in offering their sons to you, and, expect them to do the same, further ensuring your success.

This year's commercial bred heifers are a special lot, led off by an exceptional set of Red Baldy's that are a cattleman's dream. They come to you cake broke, managed for longevity, and ready to bring you an immediate return

I hope you are able to take time away from your busy schedules and be with us anytime prior to or for the bull sale. We look forward to opening the gates for you at the ranch and finding the dam of your future herd sire, showing you the feedlot, and offering the opportunity to reconnect with some of the best people anywhere that we are proud to call our customers and friends.

DURHAMS FOREVER!

Suitable for heifers.

The stoutest and likely best roan Outlaw son we have raised. He is wide muzzled, deep jawed, with great body density. When I think of longevity in our cowherd, I think of the Maude's, which, his mother is fast becoming one of our top young cows.

Selling full possession and 50% semen interest.

Seller retains 50% semen rights.

Suitable for heifers.

There is perhaps nothing more satisfying to me than making white Shorthorn bulls great again. JSF Jack Frost 6G could be the best purebred white bull we have ever raised. He has the ability to lead any purebred herd on the continent. What makes him truly special is I don't know if we have ever raised one more RIGHT to also work on Angus based cows. His power, look, circumference of foot, depth of heel, strong top, and stoutness read to me as a perfect compliment to much of the Angus population today.

Lot 32 & 33: Both suitable for heifers.

Lot 32: 7/8 Shorthorn. Progeny will be considered purebred when mated to purebred cows.

So much quality in this pair of Ember sons. 43G is the slightly larger framed of the pair with great balance and an ultra smooth structure. 149G is the stouter version with impeccable look and mass tied into an ultra moderate, red polled package. I'm proud of the fact we can raise solid red bulls like these, stacked with our genetics. The industry needs them.

The combination of Hot Commodity and Modoc Margie needs no introduction. Here is a stout, flexible bull with show ring eye appeal that can work anywhere.

What do your 10 yr old cows look like?
Lot 44 - 213G and dam.

Lot 38 - 220G and dam.

ABOUT *the* BULLS...

These bulls have been raised by good milking, easy fleshing mothers in pastures along the banks of the Sheyenne River Valley system in North Dakota. Starting just east of Cooperstown, ND and running approximately 80 miles South of there to Lisbon, ND, these bulls grow up having to travel for water, forage, and shade. Only the top 25% are retained as bulls. Once weaned, they are fed for optimum, not maximum gain, in large pens free choice hay, on a 52 mCal ration. This allows the bulls to express their differences genetically but not get overly fat. Once yearling weights and scan data are recorded, the bulls are gradually backed down to a 42 mCal ration prior to turnout and/or delivery.

KL GOLD ROSE

Lot 55, 56, 57, 58: All suitable for heifers.

If you need a group of red turnout bulls for a set of heifers, spend some time in this group. Locked in calving ease. 57 darn near made the Denver pen and is jointly represented with our great customer and friend, Travis Coats at Cowgill, MO. Thanks Travis! They are all red, big middled, functional bulls that will last with influence from 2 of the best cows to ever walk here, Princess 114P and Gold Rose 451.

Dam Age: 5

Lot 59, 60, 61, 62: Lot 61 & 62 suitable for heifers.

61 and 62 suitable for heifers. 59 is the only Skyfall on the sale and he is roan tank that will bring power and stoutness to the table. 60 is cut much from the same cloth, only deep cherry red, and from one the best cows we have ever had a part of and 188G is the result of a shared flush with our great customers in OH, Tom and Susie Turner of Turner Shorthorns at Somerset. 61 is a stout made stud with a cocky look and his dam is can't miss. 62 is much the same with a slightly longer front and ultra smooth shoulder.

73

Muridale Dumbledore 109Z Sire of lots 73-75,78-79

Lots 72-80:

The best set of Durham Blues we have ever offered, by a mile. Pounds heavy, powerfully constructed, with several half brothers in the group. Note their individual performance and excellent birth to weaning spread. These bulls have been a hit for our customers in the far west that run in high elevations. Why? They pass their PAP test in the spring and come home off the mountain in the fall having done their job. Great pen of bulls.

TRUCKING Free delivery in the US and Canada.

DIRECTIONS

From the South: I-29N to the HWY 46 Exit (Kindred) and then 50 miles west.

From the West: 5 miles east and 1/4 mile north of the Junctions of ND Hwy's 1 & 46.

From the North: Kathryn Exit off I-94, 20 miles south on County Road 21 (National Scenic Byway).

From the East: I-94 North to the Wilkin County 30/MN 108 Exit north of Fergus Falls, MN. Head west on Wilkin County 30 to US-75 at Wolverton, MN. Go north 1 mile then, west 3 miles to I-29N. Take I-29 north 4 miles to the Hwy 46 Exit (Kindred) and then 50 miles west until you come to the farm along Hwy 46.

GENERAL SALE INFORMATION

We are retaining 1/4 semen interest in all bulls sold.

Mailed Bids: Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

Terms And Conditions: Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

Billed Accounts: All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners.

Liability: Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees,

auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

Health: Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All cows tested negative for TB, BVD-PI3 and Johne's Disease. Cows vaccinated with Bovi-Shield Gold and wormed. Calves have had Bovi-Shield Gold, Vision-7 and Cydectin.

Genetic Condition Disclaimer: All cattle are guaranteed free of any known genetic condition unless otherwise noted.

Insurance will be available at the settlement desk upon conclusion of the sale.

Announcements made from the auction block take precedence over all printed material in this catalog.
