WATCH AND BID ONLINE

Greetings and welcome to your first look at the 15th Annual bull sale, Durhams in the Dakotas 2021!

While it feels really good to have 2020 in the rear view, it also offers cause for pause, and, positive reflection. We started off 2020 with a history making bull sale and followed it with our strongest private treaty bull demand ever, resulting in the sale of over 100 Shorthorn breeding bulls. Optimism returned to the Ag Sector with improved weather conditions and prices not realized in nearly a decade. Preston Cargo came back to JSF, this time with a wonderful family that truly breathed new life into this old soul. Durham Nation was a record setter and will go down as one of the strongest female sales of any breed this past fall sale season. While we acknowledge lost loved ones and trials for many, both business and personal, we are also beyond grateful for all the good we have been afforded.

Never to rest on laurels, we charge into 2021 with unparalleled energy and the greatest set of Shorthorn and Shorthorn influenced bulls ever assembled on the forthcoming pages. They exemplify what our cattle are known for, excelling in convenience traits and in turn bred for the long haul. How many sales do you view where the majority of bulls boast a sire that remains in natural service, covering vast country, at anywhere from 6 to 11 years of age? I'll put money on not many, if any, of any breed. And, speaking of money, for what they cost anymore, we expect them to last for you, the customer, as long as possible, siring females that do just the same.

Back to the bulls...exciting new sire groups. An outcross to the vast majority of Shorthorn cattle worldwide. And a set of sons from the old guard that's never been better

They're all ready. As are their dams. We invite your appraisal at any time that is most convenient for you prior and up to sale day.

If you are able, we hope to see you at the ranch on February 2, 2021 where the largest and best offering of Shorthorn bulls on the continent go on the block!

DURHAMS FOREVER!

DURHAM'S *in the* DAKOTAS

TUESDAY, FEBRUARY 2, 2021 • 2 PM
AT THE RANCH, KATHRYN, NORTH DAKOTA

SCHEDULE OF EVENTS

Saturday, January 30 - Monday, February 1

- Bulls and breds available for viewing
- Personal tours of the cow herd.
- See the dams of your future herd sires.

Tuesday, February 2

12:30 p.m. Complimentary Beef Meal

2:00 p.m. DURHAM'S IN THE DAKOTAS 2021

Suitable for heifers.

The dam of this bull never misses. She landed the top selling open heifer on Durham Nation 2018 to the Hidden Paradise Ranch. A Denver pen bull in 2017, this large scrotal, sleek fronted, perfect structured Outlaw, and, another son sells as lot 21. If you are looking for a bull to make attractive females with longevity and hardy stock bulls, start with Golddigger.

Selling 50% Semen Interest and Full Possession.

Suitable for heifers.

For nearly 2 decades, we have prided ourselves on the creation of industry driven Shorthorn bulls that provide an outcross option to the mainstream genetics within the breed. Perhaps no greater example of this exists than the bull you are looking at right now. An outcross to virtually everything in the breed, on multiple continents, with incredible look, dimension, foot shape, and presence.

A few have heard me say it, now putting it to print.

JSF Palermo 172H is the most unique Shorthorn bull we have ever raised.

BOND... JSF BOND...116H.

Selling 50% Semen Interest and Full Possession.

Suitable for heifers.

A standout all his days, JSF Bond 116H is a special individual. Yet another outcross, this Herd Sire is cat sound, ideal structured, and attractive from every angle. The Australian outcross Baker delivers an extra shot of power and performance. He, along with Palermo, was at the top of Jeff Aegerter and Rick Osterday's lists the weekend of Durham Nation 2020. His dam is one of my top young cows.

I have a hunch this one will be heard from for years to come.

Suitable for heifers.

A ranch favorite since his earliest days, 5H is a stout, stocky, chunk of a beef bull. Uniquely bred, his maternal granddam is a full sib to Wall Street and Times Square, with a shot of Outlaw to add some look. Ronan 5H will be high on many a list come sale day.

Suitable for heifers.

This bull displays as much masculinity as any of the Reincarnations and has since a young age. Crest hair with a tight curl, wide muzzle, huge scrotal. I have gone back and forth on these as to which one is the best. Hard when they are so close and good. 92H could breed cows here.

Both Suitable for heifers.

A pair of chunky cherry red Ripper sons that would make an excellent pair to go work on a large set of red heifers or cows, keeping calves solid red, yet improving dark pigment, and softening body type. Good pair of fault free, cowboy bulls here.

We sampled Banjo as an Outcross, White Sire Option that would fit with our goals. On his way to Greens Fork, IN the bull overnighted here. He hadn't been here an hour and I called Phil Bowman to see what it would take for him to not leave. I was unsuccessful. I have admired the progeny since, we expect you will, too.

Saskvalley Banjo 268B
Sire of Lots 28-34

ABOUT *the* BULLS...

These bulls have been raised by good milking, easy fleshing, sound footed mothers in pastures along the banks of the Sheyenne & James River Valley systems in ND. They, and their dams, grow up having to travel for water, forage, and shade. Only the top 50% are retained as bulls. Once weaned, they are fed for optimum, not maximum gain, in large pens with free choice hay, working up to a 54mCal ration. This allows the bulls to express their genetic differences but not get overly fat. This year, we increased our pen size, forcing more travel once the bulls hit the yard. I believe this has resulted in the freshest, soundest set yet. Additionally, with the cancellation of Denver, Cattlemen's Congress in OKC, and sale effectively a week early, we pictured the bulls a full week earlier, and, to lessen stress on the crew and bulls prior to yearling scan, we videoed the same time, effectively a full month earlier than in the past. Post yearling scan, the bulls will be gradually backed down to a 42mCal ration prior to turnout and/or delivery, at which time, they will have passed a BSE, and, received 2 rounds of footrot vaccine.

THE CHECKERED FLAG'S

This bull got strong consideration for the OKC Pen. He is stout featured, heavy muscled, strong topped and sound. His dam is a cow LeRoy purchased from the great SBR herd that has done a nice job. This was the first bull calf he mentioned when they arrived last spring and stayed at the front. Good eye from a great old cowman.

Lot 36 Suitable for heifers.

These bulls are so quiet dispositioned it was hard to picture them! Just because they didn't want to show off, don't discount either. The Checkered Flag heifers have been the rage of Durham Nation the last 2 years and these are their penmates, each raised by excellent cows. 36 stemming from the Mona Lisa line and 37 from the great Lovemore cows and is a maternal half sib to the great JSF Top Hand 34R.

CHART A NEW COURSE WITH 176H!

A carbon copy of the great Compass, this dude is good. Much like his sire, he is chuck full of red meat, clean jointed, and, deep flanked with a great head.

*JSF Josey Wales 126E
Sire of Lots 39 & 40*

Both suitable for heifers.

The only 2 Josey's this year and they are highly representative of what that bull does. Calving ease without sacrificing look and an extra shot of performance.

Suitable for heifers.

I couldn't imagine a better representative to lead off the inaugural set of Battlefront bulls. This dude is good and he knows it. Awesome head, explosive jump muscle, and a killer look best describe. Above to significantly above breed average for 10 out of 12 measured traits. Top 5% in the breed for BMI.

The Battlefront heifer calves had their coming out party last fall on Durham Nation and were admired for their usefulness and marketability.

Boys, it's your turn.

The bull that most closely resembles his sire at this stage. Note his dam is a full sib to Wall Street and Times Square.

Herd. Bull. Time.

JSF Optimizer 261D
Sire of Lots 3, 6, 49 & 50

The next 13 sons will always have a special place here. The last set sired at JSF by Big Sky, and, as I've told many and others have witnessed, the old man saved his best for last. Matt Woolfolk likely said it best when he said there is no bottom in them. That's how I see them, too. Solid, sound, easy fleshing, trouble free Shorthorn beef bulls that are built to last. Speaking of built to last, we'll start with one out of a great Maude cow, bet he's still breeding cows somewhere in 2030.

All Suitable for heifers.

These 3/4 brothers are peas in a pod and represent some of the longest standing and most respected cow families both at the ranch, and, within the breed. Take your pick, you won't be wrong, and go improve your bottom line.

Although his picture may not show it, this ET bull may have as much potential as any Big Sky son we have ever raised. He has really come on since weaning, will be one of the heaviest Sky's at yearling scan. His Mona Lisa dam has proven she can land a great one. Double bred Marquis....with a shot of Bonanza, and Eagle...yes please. Maternal half sib to lot 3.

59 & 61 suitable for heifers.

Three powerhouse, stacked studs here. Unfortunately 59 & 61 had horns. Had 70H been polled, hard to say what he'd bring. As is, he will be an excellent candidate for a set of Angus and/ commercial black cows looking to make some blues and keep them polled.

62

64

63

All suitable for heifers.

62 was a twin and has really come on since weaning. 205H is a ShorthornPlus bull and delivers strong performance coupled with desired convenience traits our cattle are known for. 64 is a partnership bull with our excellent friends and customers the Golemboski's from CO. This son of Skyfall exhibits the same kind of performance and power you have read about in the Maternal Event catalog on a couple of the Byland lots and will only further his standing as his use becomes more prevalent there and in Australia.

DURHAM NATION

FIRST SATURDAY IN NOVEMBER

ANNUAL FEMALE SALE

This bull got off the trailer from Modoc and immediately made an impact. Performance. Power. Stoutness. Eye appeal. We have been fortunate to work with Tyler and the Cates family in developing some excellent Herd Sires. This one not only fits the mold but sets the bar.

This dude is a RIP. High performing, big top and foot, stud Outcross Herd Sire with eye appeal and punch.

Red. Rockin. Stud. This 3/4 blood bull is rugged made, deep sided, with loads of muscle and guts. He could work wonders on a set of purebred cows needing a shot of performance or in a commercial setting where shear pounds are goal.

I couldn't be more proud of this pair of Wall Street's. They are truly a product of the program in that Laura selected a group of bred heifers from here a year ago, many safe to Wall Street and the majority sired by SBR GoldenRod 714. They are proof of what our Shorthorn bulls can do on a set of SHxRAXSM cows. I distinctly recall our vets comment when we worked the cattle in her pasture. Majority first calf heifers. All bred back. With a set of some of the heaviest calves he weighed all fall at side. Good job LT.

In keeping with performance, it's why we have brought in the Simmental cows and mated them to our bulls. Check out these Red Rangers! The body, balance, and eye appeal our cattle are known for with the extra performance punch Simmental brings. You should see the heifer sibs to these bulls. I'm keeping all of them. One day, we will have our own composite, unique to the industry, and won't be able to make enough of them.

All suitable for heifers.

The lower birth brothers in the Red Ranger group, all are acceptable for birth and yet still bring ample performance to the table. Take your pick for a red heifer project and don't be bashful about the fact that they have just enough Shorthorn to make them that much better.

188H is a big weaning weight Red Ranger here out of a first calf dam. Rapid performance from growth to a yearling status really shows in these cattle and 188H is no exception. 56H is a super thick, chunky 3/4 blood that will sire pounds heavy steers and fancy replacement heifers. 183H is perhaps a great combo of both bulls. Extra performance, super easy keeping, and ready to leave a sweet set of Shorthorn influenced calves for his new owner.

3/4. Progeny will be considered 7/8 when mated to purebred Shorthorn cows.

124H's dam has a proven track record, landing excellent ShorthornPlus herd bulls across the country. This one is a performance powerhouse with a slightly different twist top side of his pedigree.

Lastly, but certainly not least, 5H is a true meat and potatoes bull that is full sib to one of the best Shorthorn breeding bulls in the last 2 decades, JSF/RB Prestige 8U, yes, a Proud Jazz x Golden Chain, heifer safe. Thanks Fred, Emily, and Rhett.

AMERICAN SHORTHORN ASSOCIATION SELECTION INDEXES

Selection indexes weight multiple EPDs with an economic value to create a simplified selection tool built to meet the goals of your operation. Whether it's production of superior replacement females, quality feeder cattle, or sleep all night calving ease, selection indexes combine the traits that drive profits to identify the Shorthorn genetics suited to meet your needs.

THE ASA SELECTION INDEXES

- \$Calving Ease (\$CEZ):** Genetics that you can trust to calve easy while keeping mature cow size in check. You'll sleep soundly and your heifers will thank you for selecting for high \$CEZ sires.
- \$British Maternal (\$BMI):** A balanced, multi-trait index built to identify the ideal seedstock for crossbreeding on British breed cow herds. \$BMI focuses on the traits you want in your cows: easy calving, maternal performance and moderate mature size, while keeping the growth and carcass merit in your steer calves.
- \$Feedlot (\$F):** For the cattleman who sees value in retaining ownership of feeder cattle. Growth, performance, and carcass quality drive \$Feedlot. Cattle bred to grow and grade excel in \$Feedlot.

INFLUENCE OF EPDS ON ASA SELECTION INDEXES

	<i>\$CEZ</i>	<i>\$BMI</i>	<i>\$F</i>

Ever since I reached out to Preston regarding coming back to JSF, he'd mentioned this bull. Truly, since he arrived, he's owned the black bull pen. What a stud. See him in the ShorthornPlus halter show at OKC!

TRUCKING

Free delivery in the US and Canada.

DIRECTIONS

From the South: 1-29N to the HWY 46 Exit (Kindred) and then 50 miles west.

From the West: 5 miles east and ¼ mile north of the Junctions of ND Hwy's 1 & 46.

From the North: Kathryn Exit off I-94, 20 miles south on County Road 21 (National Scenic Byway).

From the East: I-94 North to the Wilkin County 30/MN 108 Exit north of Fergus Falls, MN. Head west on Wilkin County 30 to US-75 at Wolverton, MN. Go north 1 mile then, west 3 miles to I-29N. Take I-29 north 4 miles to the Hwy 46 Exit (Kindred) and then 50 miles west until you come to the farm along Hwy 46.

GENERAL SALE INFORMATION

We are retaining 1/4 semen interest in all bulls sold.

Mailed Bids: Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

Terms And Conditions: Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

Billed Accounts: All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners.

Liability: Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees,

auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

Health: Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All cows tested negative for TB, BVD-PI3 and Johne's Disease. Cows vaccinated with Bovi-Shield Gold and wormed. Calves have had Bovi-Shield Gold, Vision-7 and Cydectin.

Genetic Condition Disclaimer: All cattle are guaranteed free of any known genetic condition unless otherwise noted.

Insurance will be available at the settlement desk upon conclusion of the sale.

Announcements made from the auction block take precedence over all printed material in this catalog.

THANK YOU FOR YOUR INTEREST IN OUR PROGRAM!

These bulls will be in OKC and match up as well as any set of Plus bulls we've ever campaigned.
64H is a sleek, stealthy, stud.
