# DURHAM NATION

SATURDAY, NOVEMBER 6, 2021 | 5:30 PM | AT THE RANCH, KATHRYN, NORTH DAKOTA

Greetings and Welcome to the 11th Annual Durham Nation Sale!

What a year. Anymore though, they all are. One thing remains constant, the resiliency of those in the Agriculture sector. We are proud to live that every day. If you're reading this, it's very likely that resiliency is deeply engrained in you as well. Speaking of engrained, the firms comprising Durham Nation are engrained in the Shorthorn breed. The addition of Deerhorn Farms and Bar N only deepens that. Like minded stockmen, rich with history, focused on making Shorthorn cattle, better. We are confident the cattle on the forthcoming pages will do just that. Why? They are industry driven, high quality, Shorthorn and Shorthorn Influenced Seedstock, developed in environments where they are forced to withstand ever present challenges, truly making them that much more versatile. It's why they will sell all over the lower 48, why our bulls are used around the world, and why we now present the largest offering Shorthorn influenced cattle on the Continent. Headlined by outstanding bred females, stunning heifer calves, and elite genetic lots, rounded by a set of uniquely bred, rugged made, age advantaged bulls that will put seedstock and commercial cattlemen on notice. Together, they truly make Durham Nation 2021 a can't miss event.

With great anticipation, we invite your inspection and appraisal of the stock on the forthcoming pages. They are backed by exceptional people, who are looking forward to being your hosts for a great weekend away.

You see, in Kathryn, ND on November 6th, the renewed interest in America's First will generate excitement for the Shorthorn breed unlike anything you have ever witnessed. We look forward to seeing you there!

Durhams Forever!

## TRUCKING

We will deliver Free of Charge in the Continental US & to Canadian Points of Entry.

This sale will be broadcast live on the internet.

## GENERAL SALE INFORMATION

**Flushing:** All consignors retain a flush on all females selling from their program. The flush will be at our expense and the buyer's convenience with a guarantee of six grade one embryos.

**Mailed Bids:** Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

**Terms And Conditions:** Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

**Update On Breeding And Calving Information:** There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

**Billed Accounts:** All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners.

**Liability:** Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

**Health:** Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All cows tested negative for TB, BVD-PI3 and John's Disease. Cows vaccinated with Bovi-Shield Gold and wormed. Calves have had Bovi-Shield Gold, Vision-7 and Cydectin.

**Insurance** will be available at the settlement desk upon conclusion of the sale.

**Announcements** made from the auction block take precedence over all printed material in this catalog.

**ALL ANIMALS SELLING WILL BE GENETIC CONDITION  
FREE UNLESS OTHERWISE NOTED.**

For nearly 2 decades now, we have prided ourselves in offering some of the most genetically fresh, high quality, future donor females known to this breed. 174J sets the bar.  
Study her ¾ brothers sale weekend, JSF Foreplay 168J and JSF Forecast 53J. They are as good as any bulls we’ve ever raised, further qualifying her value.

She is currently averaging 10 embryos per flush.

Likely the most eye appealing, high presence female on the ranch. Her genetic lots represent some of the most rare on US soil. She is no-miss and earned her spot in the donor pen this fall. The Dam of the sale topper Polaris, who has been further proven through this exceptional, high quality progeny both here and for the Plummer family in CA, Miss Perfection 182G, future donor for Derek Miller, "In the Valley" near Shreve, OH, and, JSF Asteroid 252H, selling on this sale to name a few. 11-6-21 will be her true coming out party.

She is currently averaging 8 embryos per flush.

No other female has left a set of sons that have made a greater impact on the breed over the last decade, doing so across the globe after landing 3 sons with major AI studs. She landed another pair of masterpieces this year, sired by JSF Marquis 127X. Shortly after they make their mark next February, she will celebrate her 18th birthday and then a new litter will drop, sired by the likes of JSF McCoy, JSF Marquis 127X, JSF Exclusive 13G, and, perhaps the ones we're most excited about, the Royalla Rockstar's.

Maternal half sib to JSF Ronan 5H, sale topper and new herd sire for Bowman Superior Genetics, Greens Fork, IN, recently acquired by Cattle Visions as a featured Shorthorn sire. Their dam, 36F is a beautifully designed Outlaw daughter that maintained her flesh well, raised this standout heifer calf, and, bred right back over the driest summer North Dakota had experienced in a century. Battlefront only accentuated an already first class pedigree.

451 & 68K up close in pedigree? I like those odds.

Both of these heifer calves share the immortal 451 as their maternal great granddam.  
81J is a stout hipped, jack necked star that has been a standout all her days.  
190J is a full sib to the heifer selected by the Aarseth family from last years sale, who's dam is one of my favorite cows.

Examined safe. Due 2-25-22 to JSF Palermo 172H.

168H is a maternal half sib to last years top selling bred heifer, JSF Scarlett 136G. I fully expect their dam, 118D, to take the place of 451 in the donor pen. Gold Rose 168H represents as a feature bred lot on Durham Nation 2021, safe to the Shorthorn breeds highest selling bull of the year to Paint Valley Farms in OH, Palermo. 256H is one of the youngest breds on the sale, but, bred right up and will calve at 22 months of age to Range Officer. The Embers are some of best young cows and her dam landed a bull that will be a highlight Battlefront son on Durhams in the Dakotas 2022.

I love this heifer calf. So does Preston. I am beyond grateful we agree a lot. He thinks she will be flat stealthy on the halter. I project in the pasture, with a bull calf big as she is tugging on her. What else would you expect in the first JSF Times Square 120G heifer calf to be offered on auction?  
A better one, there is not.

Examined safe. Due 2-25-2022 to JSF Palermo 172H.

Durham Nation 2021 represents the largest offering of Maude's, ever. Longevity and thrift come standard due to one of my all-time favorite cows from the ranch as their common denominator, JSF Maude 14U. 124J is Preston's pick of the Foreman's. She is so deep sided, cowny, and level hipped, not to mention a ¾ sib to Lot 1, Foreplay, and Forecast. 189J is a typical Battlefront. Unparalleled eye appeal, loose structured, and feminine. 152H's dam was a lead Durham Nation bred herself, selected by my late, great, and most importantly, authentic, friend-LeRoy Foss. I'm hoping 152H has a white, Palermo bull calf in her as I know that would make him smile.

These 2 sweethearts are just that. Since they were a couple weeks old, they pranced around with that look at me attitude. Twin sisters of one of the best direct daughters of Proud Jazz we ever had, going back to the immortal Vicky 0426 who will have progeny linked to her born on 2 different continents this coming year. Take your pick and I'll keep the other, or, double the gavel price and own them both.

CONSIGNEE BY: JUNGELS SHORTHORN FARM

LOT 6

LOT 6A

142J is the cow of the bunch, sired by Times Square, this one is square made and stout. 22J is a lead show heifer prospect in the group with power and style to burn! 47J (on the next page) is the combination heifer of the this trio, with a great deal of power yet she does not sacrifice eye appeal and soundness. Her dam was selected on last years sale by someone I read about as a kid, later got to meet when he stopped by my Denver pen some 3 decades later, and, am very grateful returned this great breed of cattle, Mr. Scott Dau and his wife Ann, from which the Dauland cows in ND once hailed. Those that have been around long enough, know, they were "it" back in the day. Speaking of being around long enough, I would be remiss to not share the story of how the 711's came to Kathryn. All trace back to a cow I purchased from Gordon Brockmueller, Freeman, SD 16 years ago this fall. I remember that trip well. He had made the decision to sell some cows, all were priced. Except one. I know I purchased 2 trailer loads of cows that day to get GB Seven Eleven, a red and white spotted, ultra moderate belly dragger by Dunbeacon Venture. Wow was she ever different!

Her first son that was in calf when I bought her sold on the inaugural Durhams for Denver sale to what became one of my most admired and longest term customers, the Lambert's in Fulton, SD. The next year, she had a litter of ET's that included JSF Navigator T2, and, JSF All Sevens T7. Navigator's impact is currently felt through some of the best producing cows on the ranch. T7 is a cow that everyone found, and, left a legacy of daughters that are now raising some of our best. By the way, both loads of cows got paid for by Navigator and his band of brothers. When you know, you know.

**Examined safe. Due 2-25-22 to JSF Bond 116H.**

This one shouldn't leave...the only bred heifer sired by Reincarnation on the sale. White. A 711. Safe to Bond. JSF Bond.

LOT 7

LOT 7B

137J is adored by the crew. Sweet disposition, loads of power and mass in a cat sound, attractive package. Juniors that are just starting out, if you need a sweetheart of a heifer that will teach you the ropes with the chance to win a few along the way, lookup 137J sale day.

49H is phenotypically one of the best bred heifers on the sale. She is deep, broody, thick, and, reads cow.

220H is constructed much the same, only white with a dark pigment. Both safe to Range Officer, calving ease and look are ensured in their progeny, which longevity built in.

The Miss Favorites all trace back to a cow named Pacemaker Miss Favorite my dad purchased at a sale of Herb Symington's (NVS) in 1984. She had 2 head prior that sold to ND breeders. Wallace Hawken from Langdon had a son walking in his pasture, and, the Lien family (Rocky Acres) from Ypsilanti had a daughter. Herb's sale was in August. She was nursing a May born bull calf by Hilltuck Mick R7. Dad got the pair for \$700. She came to Finley and had 2 daughters that I will never forget. Dee Jay's Favorite 628 and Dee Jay's Miss Favorite 718S. 628 & 718S raised great calves, bred back every year, and were still there when I headed off to college in the Fall of '96. Legacy.

206J is a big time ShorthornPlus show heifer prospect. Circumference of foot, body, balance, and the sleek front 1/3 of Battlefront allow her to check a lot of boxes.

22H is a big barrelled tank of a cow and one of my favorites on the sale.

257H's full brother will be a lead Plus Bull on Durhams in the Dakotas 2022, 126J.

You will note several Roan Belle's on the forth coming pages, all representing the red roan version of our breed up from the purebred Angus cows from which they came. They are naturally big bodied, eye appealing, with maternal heterosis built in.

138J is yet another Times Square, this time by one of the eldest direct daughters of the immortal Proud Jazz on the ranch, 38X. Her maternal half brother by Banjo was selected on last years bull sale by Loren Tejkl. She is a beautifully designed female with a quiet disposition and exceptional dam. 265H is a direct daughter of 714 from a cow that just left last year, 37T. She was in calf on the original group we selected from Lauer's and has left a legacy of daughters here that flat produce.

Last spring I purchased a group of heifers from Promise Land Cattle Co in MT. Zane has utilized the same and/or very similar genetics to ours with success. When I saw he was offering yearling heifers for sale, I was intrigued. He was good enough to AI them before they left to a white bull I find very interesting, AC PLC Power Broker. Power Broker is yet another son of the great JSF Broker 157J, and, with his progeny, 3 Broker sons sired calves here in 2021. The PLC first calf heifers are really, really good...moderate, thrifty, perfect uddered cows that bred back right away and look to be around a while. Another reason I love Montana.

49J is a load of a heifer and while the Checkered Flag heifers are not long in number this year, they are high in quality, and, their brothers took over in the number department. In his last year, he gave us a set of dudes! 105J is a bulletproof female with look and an a mellow disposition. Both hail from cows LeRoy and Kay purchased over the years from places LeRoy wanted to see and watched closely, Byland and Gilman's. Last but not least, 115J hailing from the great Meg cow family.

There is power on this page. In my opinion, 2 of the top heifer calves to be offered are lined up right here. 59J is only one of 2 Reincarnation heifer calves offered on the sale, and, one I debated a great deal on selling. She brings the goods, and, more than once I recall the crew coming back from pasture checks talking about 59J.

41J has been a favorite of mine all her days. She combines a killer look with amazing cow power, lining up 68K and Princess 114P.

Here they are...have at em.

She is currently averaging 6 embryos per flush.

This cow continues to impress. She is responsible for the high selling bull of the breed last year in Palermo. This year, she landed another, sired by Times Square, that could do it again, JSF Manhattan 194J. Beyond that, she landed 3 more bulls that will make the sale, sired by 3 different bulls! Mate anyway you want, she hasn't missed yet.

The Suzy family started here in 1987 when we purchased cows from the Dover Ranch in Montana. One of those cows was DRC 100H, her maternal sire was Sutherland Ransom 176, the Sutherland herd has been on my mind after hearing we recently lost a great cattleman with the passing of Jack Ragsdale. This heifer traces all the way back to that cow, she is rich in genetics that built the Shorthorn breed. Last year the Fjeldheim family purchased her maternal sister expanding the Shorthorn herd they've been building the past few years. Add a piece of Shorthorn history to your herd - buy this one 11/6/21.

When we talk about making shorthorns cool again this is what we envision. After being invited to the Durham Nation I knew I better bring the heat so as much as I wanted to keep this one for a cow I knew she had to be offered. This bred combines the words powerful and elegant and is sure to be a front pasture type cow for years to come. It almost does not matter what direction you want to mate her as her outcross pedigree allows to be bred in absolutely any direction. Watch for her brother next year... he's a stud.

LOT 73

What. A. Lot. The Lady May's are truly high quality stock with eye appeal, density, and, impeccable structure. They all trace back to JR April Lady 57K, a female I selected from the JR Ranch, Othello, WA as an open heifer in the spring of 2001. She possessed, and, later passed on, a very attractive front with a flat shoulder, incredible center 1/3 density, and, a near perfect hip. It is crazy to think that 20 years ago this past Memorial Day I was headed back from Billings, MT with 10 open heifers from WA that cost \$900/each. Not only because it seems like yesterday, but more so for what they represent today. You see...also on that load with 57K were: JR Patty 120K, JR Princess 42K, JR Sara 10K, and, last, but certainly not least, MR Adelaide 68K.

I can't wait for people to see this group of solid red, 1/2 to 3/4 Shorthorn females sale day as they are a heckuva set. They absolutely represent what Shorthorn bulls can do when placed in a situation to where the desired outcome is improvement in disposition, maternal characteristics, and phenotype. Their matings to purebred and/or high % Shorthorn bulls allow for registration for all of the progeny as well, further adding value.

These 3 females are non-registered, commercial Shorthorn. They are mated to purebred bulls, hence, their progeny are registerable at the 50% level. They, along with the SHxCHAR cross females were the progeny at side of a group of pairs purchased last spring from one of our longest term bull commercial bull buyers, the Steven Weigel at Kintyre, ND. Their dams are all in production here and we couldn't be more pleased. These will be high quality heifers that will make super cows. Clubby folks, if you are looking to get some color and make cattle that will slick shear, take note of these!

The body density, flexibility, an shear quality of these blues is something we are very proud of. They are an example of what Shorthorn bulls can do on a set of Angus based females. As an added bonus, the calves they are carrying by White Russian are registerable ShorthornPlus. Take one or a trailer load, they are an incredible set.

Named after the breeder of his sire, Hector Mario and I think he would be pleased because in my opinion this guy is a Real Stock Bull! Long, deep and thick with a very unique pedigree, Hector x Bonanza x Marquis. Super sound on the move and calving ease to boot! I believe this guy will leave his mark on the breed!

### Suitable for heifers.

We used Hector on heifers for calving ease and he did not disappoint, as we didn't witness any calves being born. Then the bonus came as they started to grow and develop like this guy. 3 dimensional and sound as can be! His Dam is a full sister to our lead bull in OKC last year.

**Retaining 1/2 Semen Interest.**  
**Suitable for heifers.**  
When Derek and I talked about putting bulls in the Durham Nation Sale I knew Conviction would be the leader in the Clubhouse. Rarely is there a bull that checks more boxes and has the ability to be a sire that can excel in multiple circles. But this guy can do just that. His dam was lost last summer to lightning while she was still nursing this guy but he never skipped a beat. She was an absolute model shorthorn cow. Perfect headed- wedge shaped- excellent feet and an udder that would be hard to replicate with a pencil and paper. He was a lead off bull from the day he was born and he knew it. And this was not her first time raising one... she was also the dam to Bar N Deliverance. As for his sire... while not famous yet, he is leading the way for Promised Land Cattle Company in Montana and after seeing his calf crop out there this summer he is sure to stick around. I cannot wait to see what Conviction does to help this great breed move in the right direction. There's been some good bulls that carry the Bar N prefix but this guy could make is way to the top of the list.

### Suitable for heifers.

A paternal brother to Conviction. This bull is flat good. He's clean pedigreed, and good numbered to go with it! He always demands attention. His mother is a superb Ripper daughter and He is sure to leave a set of daughters that will make most cattlemen drive off the road as they attempt to drive by. Powerful and Cool would best describe this future herd sire. Check out our website [www.shorthornbulls.com](http://www.shorthornbulls.com) to see some candid shots of his mom... She's got another good one on her side right now that looks like he'll be Durham Nation bound next year.

**Suitable for heifers.** Rugged made beef bull right here. I recently heard a quote the best kind of cow is just an ordinary cow without faults. There is not really anything ordinary about his dame but she does come without faults. All she does is go out and raise good ones while breeding back early and doing exactly what beef cows are supposed to do... Turn low quality forage into beef- she's specialized in that and he is sure to leave you with a set of daughters that will do the same.

**Suitable for heifers.** As you look through these bulls, you'll notice we are very high on Standout. Several years ago, when Standout sold in the JDMC sale along with his flush mate brothers there was a ton of excitement. He ended up in Oklahoma and when I found out there was an opportunity to bring him back, I didn't think twice and I'm glad I did. Here is yet another son that is big topped and powerfully constructed. His dam has a full sister on her now that would be pulled into the show pen and most Shorthorn operations. She's pretty and she looks to be at the top of the keeper pen. When you see him you'll understand why.

Prince is named after his maternal grandsire... The jazz son that Ohlde kept to replace his sire. When we got the chance to bring Prince to Minnesota we did exactly that and we have a phenomenal set of daughters still running around here. His dam is one of them and I will have a picture of her on our website as well. She's comparable to 8 pounds of sugar stuck into a 5 pound sack. She's moderate but wide and long. Always does an excellent job and also a Silvia... one of our favorites around the Bar N.

## ABOUT THE BULLS...

The bulls were fed together and managed on grass with minimal supplement from June 10 through August 20. Since August 20, they have been fed a mixed ration of straw, alfalfa, distillers, corn screenings, and pulp byproduct.

These bulls have not been topped, none have been offered for sale, they have been held specifically for Durham Nation 2021.

The bulls will be weighed and ultrasound scanned a week prior the sale, with all information available sale day.

They will be semen tested and ready for interstate travel sale day.

If you have any specific questions regarding the Deerhorn & Bar N bulls dams, or, management prior to coming to Kathryn, contact Jeff or Cody.

The best crew anyone could ever ask for...  
Preston Cargo, Haley Anderson, Laura Thoreson.  
*Thanks for all you do!*
